

Now said that Khrushchev removed his his  
missiles from Cuba and in return Kennedy  
removed our missiles from Turkey

This is false  
Removing our missile from Turkey was  
Khr's second proposal. JFK left he  
could not agree to that, even though he  
his earlier orders that they be removed  
had been ignored

He said that in return for the removal  
of the USSR's missiles in Cuba we would  
guarantee Cuba against ~~USSR~~ invasion

and for this was the solution to  
the Cuba missile crisis
